LETTERS

- Unconscious selection drove seed enlargement in vegetable crops
Thomas A. Kluyver, Glynis Jones, Benoît Pujol, Christopher Bennett, Emily J. Mockford,
Michael Charles, Mark Rees, and Colin P. Osborne 64-72
- A nonrandom subset of olfactory genes is associated with host preference in the fruit fly
Drosophila oreana
Aaron A. Comeault, Antonio Serrato-Capuchina, David A. Turissini, Patrick J. McLaughlin,
Jean R. David, and Daniel R. Matute 73-85
- Direct estimation of the spontaneous mutation rate by short-term mutation accumulation lines
in *Chironomus riparius*
Ann-Marie Oppold, and Markus Pfenninger 86-92
- A genomic footprint of hybrid zone movement in crested newts
Ben Wielstra, Terry Burke, Roger K. Butlin, Aziz Avcı, Nazan Üzümlü, Emin Bozkurt,
Kurtuluş Olgun, and Jan W. Arntzen 93-101
- Experimental evolution reveals that sperm competition intensity selects for longer, more
costly sperm
Joanne L. Godwin, Ramakrishnan Vasudeva, Łukasz Michalczyk, Oliver Y. Martin,
Alyson J. Lumley, Tracey Chapman, and Matthew J. G. Gage 102-113

Aims and Scope

Evolution Letters publishes cutting-edge new research in all areas of Evolutionary Biology. Papers should demand rapid publication because they substantially advance the field, are of outstanding clarity and originality, or are of broad interest. Papers that introduce new analytical or methodological frameworks that are likely to be highly influential will also be considered. Opinion and commentary articles on new developments or emerging themes are also encouraged. Traditional reviews will not be considered, as plenty of appropriate forums for these already exist. The Editor-in-Chief and Editorial Board welcome enquiries about other forms of article. *Evolution Letters* is jointly owned by the European Society of Evolutionary Biology (ESEB) and the Society for the Study of Evolution (SSE). Profits from the journal are invested back into the two societies. The journal is online only and entirely open access. The journal has a flexible approach to the format of manuscripts on submission, and will only ask authors to adhere to a house style (see Instructions for Authors) once the manuscript is accepted for publication.

Open Access and Copyright

All articles published by *Evolution Letters* are fully open access: immediately freely available to read, download and share. All articles are published under the terms of the Creative Commons Attribution License which permits use, distribution and reproduction in any medium, provided the original work is properly cited and allows the commercial use of published articles. Copyright on any research article in a journal published by *Evolution Letters* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher. Authors also grant any third party the right to use the article freely as long as its integrity is maintained and its original authors, citation details and publisher are identified. Further information about open access license and copyright can be found at <http://www.wileyopenaccess.com/details/content/12f25db4c87/Copyright%E2%80%9393License.html>
